

FIG. 1 is a schematic diagram of a device 100, showing a cross-sectional view of a layered structure. The device 100 includes a substrate 110, a first layer 120, a second layer 130, a third layer 140, a fourth layer 150, a fifth layer 160, and a sixth layer 170. The layers 120, 130, 140, 150, 160, and 170 are stacked on top of the substrate 110. The layer 150 is a dotted layer, and the layer 160 is a solid layer. The layer 170 is a solid layer. The layer 140 is a solid layer. The layer 130 is a solid layer. The layer 120 is a solid layer. The substrate 110 is a solid layer.
